PROFESSIONAL SUMMARY

Recent Computer Science graduate (First Class, University of Birmingham, 2024) with hands-on experience from two software engineering internships and four independently built projects. Eager to join a product team where I can contribute to real-world systems while continuing to grow as a developer. Strong foundation in Python, JavaScript, and React.

INTERNSHIP EXPERIENCE

Software Engineering Intern

HSBC Technology · Birmingham, UK · Jun 2023 – Aug 2023

- Built internal dashboard for fraud case management using React and Node.js, used by 40 analysts across two teams
- Wrote 120 unit and integration tests for legacy payment validation service, uncovering 3 previously unknown bugs
- Presented project outcomes to team of 15 including 2 senior engineers — received exceeds expectations rating

Junior Developer Intern

Startup Ventures (EdTech) · Remote · Jun 2022 – Aug 2022

- Developed REST API endpoints in Python/Flask for a student quiz platform used by 2,000 active students
- Fixed 18 bugs reported by beta users, reducing error rate by 45% over the summer

PROJECTS

FinanceFlow — Personal Budget App · github.com/amaradiallo/financeflow

- Full-stack web app built with React, Node.js, PostgreSQL — 200+ GitHub stars, 45 forks
- Implemented bank statement CSV parser that auto-categorises transactions with 89% accuracy

Dissertation — ML-based Code Review Assistant

- Trained BERT model on 50K GitHub pull requests to suggest code improvements; achieved 76% precision on test set

EDUCATION

BSc Computer Science (First Class Honours) · University of Birmingham

Sep 2021 – Jun 2024 · Final Year Average: 82% · Dean's List 2022, 2023, 2024

Relevant modules: Algorithms & Data Structures, Distributed Systems, Machine Learning, Software Engineering, Database Systems, Security Engineering

SKILLS

Python · JavaScript · TypeScript · React · Node.js · PostgreSQL · MongoDB · Git · Docker · REST APIs · TDD · Agile / Scrum
