PROFILE

Senior product designer with 9 years of experience crafting digital products used by millions. Specialising in complex data-heavy interfaces for fintech and healthtech. I believe great design is invisible — it just works. Led design at two Series B startups and consulted for FTSE 100 clients including Barclays and AstraZeneca.

EXPERIENCE

Lead Product Designer

Cleo AI · London · 2021 – Present

- Redesigned core budgeting experience increasing DAU by 38% (620K to 860K users)
- Built and led design system adopted across 6 product squads, reducing design inconsistencies by 80%
- Ran 40+ user research sessions per quarter, synthesising insights into actionable product decisions
- Collaborated with C-suite on 0-to-1 product strategy for savings feature — launched to 1.2M users

Senior Product Designer

Babylon Health · London · 2018 – 2021

- Designed GP consultation flow used by 2.3M patients across UK and Rwanda
- Reduced drop-off in symptom checker by 44% through iterative UX research and redesign
- Created accessibility framework adopted company-wide, improving WCAG AA compliance from 61% to 94%

Product Designer

Publicis Sapient · London · 2015 – 2018

- Delivered UX for Barclays mobile banking redesign — 4.2M users, 4.6-star App Store rating post-launch
- Led design sprints for 6 client projects across retail, financial services, and telecoms
